

Bakersfield

Westmont, Illinois

CLIENT West Highland Capital Partners
ARCHITECT WD Partners
ROLE Construction Manager

ICI was hired to complete extensive demolition and remodeling of an existing restaurant for West Highland Capital Partners. The demolition included removal of three existing exterior walls and a complete gut of the interior of the 7,400 square foot existing space.

Construction of the new restaurant incorporated the addition of outdoor canopies, a port cochere and a new car drive. The restaurant included both booth seating and free-standing tables, a private wine room, a bar and seating along the adjacent open kitchen. The space received all new mechanical systems, extensive high-end millwork and finishes as well as a temperature controlled wine room.
