

Father Michael E. Komechak Art Gallery

Lisle, Illinois

CLIENT Benedictine University
ARCHITECT DLR Group LLC
ROLE Construction Manager

ICI partnered with Benedictine University and their campus architect, DLR Group, to deliver the new Father Michael E. Komechak, O.S.B. Art Gallery. Located on the fifth floor of the Kindlon Hall of Learning, the gallery houses exhibit space for student and visiting artists' 2D and 3D work as well as an adjacent informal lounge for receptions and other University events.

ICI began working on the campus in 2008 during a renovation in the lower level of the Birck Hall of Science and the working relationship steadily grew. As the University's Construction Manager, ICI completed improvements in nearly all major campus buildings.
