

# Mid Rivers Maserati

## St. Peters, Missouri

<b>CLIENT</b>	Napleton Automotive Group
<b>ARCHITECT</b>	Napleton Automotive Group Internal Architect
<b>ROLE</b>	General Contractor

In the summer of 2017, ICI delivered our first new construction dealership for the Napleton Automotive Group. The new, 4,700 square foot ground-up Mid Rivers Maserati is situated between an existing Kia Dealership as well as a Chrysler Jeep Dodge Ram Dealership.

ICI's scope of work included relocating the existing electric, gas, cabling, site lighting and water utilities that were servicing the adjacent buildings. Coordination with the surrounding dealerships and utility companies was essential as sales and service could not be interrupted.

The high end dealership includes aluminum composite metal panels, porcelain tile throughout the showroom, Maserati branded niches and LED lighting throughout.
