

Del Frisco's Esquire Champagne Lounge

Chicago, Illinois

CLIENT Del Frisco's Restaurant Group
ARCHITECT Aria Group Architects
ROLE Construction Manager

In early fall of 2017, ICI was hired by Del Frisco's Restaurant Group for a fast-track remodel of the restaurateur's Gold Coast location in Chicago. ICI completed significant remodeling within 11 different areas of the restaurant, all while maintaining operations and working around various special events that had been booked prior to construction award.

The fast track project scope included custom light fixtures and millwork pieces as well as brass finishes that highlight the opulent new private dining space called the Esquire Champagne Room. Located on the third floor on the voluminous restaurant, the space contained a bar with surrounding cocktail tables, a piano, fireplace with lounge seating and was punctuated by a stunning centrally-located light fixture.
