

# Cooper's Hawk Winery & Restaurants

## Scottsdale, Arizona

<b>CLIENT</b>	Cooper's Hawk Winery & Restaurants, LLC
<b>ARCHITECT</b>	Aria Group Architects, Inc.
<b>ROLE</b>	Construction Manager

ICI built its first Cooper's Hawk Winery & Restaurants location in Oak Park in 2017. Since then, ICI has completed nearly twenty projects for Cooper's Hawk varying in scope from new construction restaurants, to build-outs, to remodels, and renovations.

In 2020, the restaurant group opened its furthest west location to date in Scottsdale, Arizona. Cooper's Hawk's design incorporates a multitude of high end finishes to create a sophisticated, yet casual dining experience. Wood plank ceilings and beams, stainless steel accents and bold light fixtures adorn the ceilings and walls.

When asked why ICI has been retained for multiple concurrent restaurants, Walter Fisher, Vice President of Construction for Cooper's Hawk, replied "I breathe a sigh of relief knowing that people in our industry still care deeply about the end product they deliver. We look forward to working together on many more projects."
