

Perry's Steakhouse & Grille

Schaumburg, Illinois

CLIENT	Perry's Restaurants
ARCHITECT	Aria Group Architects, Inc.
ROLE	Construction Manager

When Perry's Steakhouse & Grille was opening their first location outside of Texas in 2013, the restaurant group entrusted ICI. The 11,000 square foot build-out on the ground floor of Neiman Marcus in Oak Brook Shopping Center in Oak Brook, Illinois was a success. Perry's is now opening their second location in Illinois. Perry's once again awarded ICI the contract. In late 2019, ICI started construction on the ground up restaurant in Schaumburg after receipt of the pad-ready site. Construction was recently completed on the 12,000 square foot restaurant and the restaurant opened in October 2020.

The restaurant features Perry's newest design elements and offers seating for 330 diners, four private dining rooms and a bar attached to a spacious patio.
