

Ion Exhibits Headquarters and Warehouse

Carol Stream, Illinois

CLIENT	Ion Exhibits
ARCHITECT	Ware Malcomb
ROLE	Construction Manager

Due to recent growth, Ion Exhibits renovated and expanded an acquired office and warehouse in Carol Stream, Illinois. ICI's scope included a 20,000 square foot interior renovation of the existing office. The new space features a modified workspace layout, new conference rooms, a kitchen / breakroom, executive suite and an expansive showroom for product display.

The existing building contained a 47,600 square foot warehouse. Ion added 37,000 square feet of warehouse space. ICI's scope of work included conditioning the entire warehouse. New lighting, a sprinkler system and a fire pump were also installed within the existing building to bring the facility to current code.

Ion Exhibits provides businesses with comprehensive trade show and convention services as well as branded office environments. From printed graphics to the structural components that support the graphics, they are a full service provider for company branding.
