

Fields Rolls-Royce Bentley Lamborghini

Downers Grove, Illinois

CLIENT	Fields Auto Group
ARCHITECT	Axios Architects & Consultants, Ltd.
ROLE	Design / Builder

For nearly 30 years, ICI has partnered with Fields Auto Group to build, renovate, and expand automotive dealerships across the country. Continuing this longstanding relationship, ICI is currently constructing a new 40,000-square-foot luxury automotive dealership for Fields Auto Group in Downers Grove, Illinois.

The new Rolls-Royce, Bentley, and Lamborghini dealership will replace an existing facility that no longer meets the evolving needs of Fields Auto Group. Designed to deliver a distinctive, high-end customer experience, the facility features expansive floor-to-ceiling glazing, dedicated brand expressions, extensive digital media and specialty lighting, and a sleek, modern exterior unified by a continuous architectural canopy. Inside, individual Bentley, Lamborghini, and Rolls-Royce showroom environments will showcase each brand's unique identity while an integrated service department supports dealership operations.

The approximately 25-month project is being completed in two phases to accommodate ongoing operations. The Rolls-Royce dealership is targeted for completion in 2027, followed by Bentley and Lamborghini in 2028.
